Bold Designs with Purpose

Our 2026 collection showcases vibrant colors and modern styles, blending bold fashion with environmental responsibility. Designed for durability and comfort, our recycled apparel collection transforms PET plastic bottles into premium polyester fabrics, offering eco-conscious style without compromising quality or performance.

Responsible Sourcing with Certified Partners

We collaborate with fabric mills and factories that meet our stringent standards for quality, environmental sustainability, and ethical labor practices. Our partners hold various internationally recognized certifications ensuring they adhere to industry-leading practices.

Fabric Innovations

Performance Stretch Blend - This midlayer fabric is made from a polyester and spandex blend with a soft peached interior that feels soft and comfortable against the skin. The peached backing helps retain warmth, while the tightly knit outer face provides light wind protection. Added stretch allows for easy movement, making it an ideal layer for cool, breezy conditions or everyday wear.

Cushion Fabric - Our Soft Polyester Cushion Fabric offers plush comfort with lasting durability. Ideal for a warmer midlayer that combines luxurious softness with everyday resilience.

Organic Cotton - Organic cotton offers a natural, premium feel that's as gentle on your skin as it is on the environment. Grown without harmful chemicals or pesticides, it provides exceptional softness, breathability, and comfort you can feel every day. Durable yet lightweight, it's perfect for everything from everyday essentials.

BCI cotton - BCI cotton is produced under the Better Cotton Initiative, a global program focused on making cotton farming more sustainable. It aims to reduce water use, limit harmful pesticides, and improve working conditions for farmers, it's a standard that farmers follow to grow cotton in a more environmentally and socially responsible way. Our BCI cotton feels super soft and comfortable as traditional cotton, with a smooth, breathable texture that makes it great for everyday wear.

Herringbone - Our new soft herringbone is a distinctive woven pattern resembling the bones of a herring fish. It features a zigzag or V-shaped design, created by alternating the direction of weave. While traditionally made from wool or cotton, our new modern Polyester, Nylon Spandex blend is a higher-performance fabric but soft and comfortable to the touch.

Motion Grid - Our Recycled Poly Spandex fabric combines the best of sustainability and functionality to redefine your activewear experience. Crafted with care from recycled polyester fibers blended with stretchy spandex, this fabric offers exceptional comfort, durability, and performance without compromising on eco-conscious values.

Sweater Knit - Sweater knit features intricate, woven patterns that showcase the brand's design, creating a textured, high-quality fabric that combines style and comfort. 100% Cotton provides comfort and versatility.

Cotton Tri Blend - Soft cotton modal spandex fabric blends the breathability of cotton, the silky smoothness of modal, and the stretch of spandex for a comfortable, flexible, and luxurious feel.

Jacquard Fabric - Polyester jacquard polo fabric features a durable, textured weave with intricate patterns, offering a stylish and breathable option for comfortable, long-lasting polos.

Quilted Jacquard - Our soft quilted mid-layer fabric provides warmth and insulation without adding bulk, making it ideal for layering in colder weather. Its quilted texture helps trap heat while remaining lightweight and comfortable for all-day wear.

Textured Cotton Blend - This blended cotton polyester fabric combines cotton with other fibers, offering durability, breathability, and a unique surface feel. Its blend provides softness with added texture, making it versatile for both comfort and performance.

Ultra Soft Fleece - Crafted with a blend of recycled Polyester, Viscose and Spandex fibers, this fabric offers an unparalleled level of softness that is soft to the touch and durable for everyday wear.

All decorated orders using licensed logos become the sole responsibility of the invoiced customer, specifically pertaining to altering garments by the customer after receiving. Levelwear strictly mandates that no additional decorating of licensed product be done after receiving.
