Performance Stretch Blend

This midlayer fabric is made from a polyester and spandex blend with a soft peached interior that feels soft and comfortable against the skin. The peached backing helps retain warmth, while the tightly knit outer face provides light wind protection. Added stretch allows for easy movement, making it an ideal layer for cool, breezy conditions or everyday wear.

New

Perforated Performance Jacquard

Lightweight nylon, polyester, and spandex blend with a perforated construction that allows air to flow easily through the fabric. The result is a fabric that feels breathable and cool, even in warm conditions, while still holding its shape. Added spandex gives it just the right amount of stretch for comfortable movement, making it a great option for all day wear or active use.

Sweater Knit

Sweater knit features intricate, woven patterns that showcase the brand's design, creating a textured, high-quality fabric that combines style and comfort. 100% Cotton provides comfort and versatility.

Cotton Tri Blend

Soft cotton modal spandex fabric blends the breathability of cotton, the silky smoothness of modal, and the stretch of spandex for a comfortable, flexible, and luxurious feel.

New

Jacquard Fabric

Polyester jacquard polo fabric features a durable, textured weave with intricate patterns, offering a stylish and breathable option for comfortable, long-lasting polos.

Textured Cotton Blend

This blended cotton polyester fabric combines cotton with other fibers, offering durability, breathability, and a unique surface feel. Its blend provides softness with added texture, making it versatile for both comfort and performance.

New

Cushion Fabric

Our Soft Polyester Cushion Fabric offers plush comfort with lasting durability. Ideal for a warmer midlayer that combines luxurious softness with everyday resilience.

Recycled Product

Ultra Soft Fleece

Crafted with a blend of recycled Polyester, Viscose and Spandex fibers, this fabric offers an unparalleled level of softness that is soft to the touch and durable for everyday wear.

Herringbone

Our new soft herringbone is a distinctive woven pattern resembling the bones of a herring fish. It features a zigzag or V-shaped design, created by alternating the direction of weave. While traditionally made from wool or cotton, our new modern Polyester, Nylon Spandex blend is a higher-performance fabric but soft and comfortable to the touch.

Recycled Product

Ottoman

This fabric features a tightly woven structure with subtle horizontal ribs or corded lines, offering a stylish and tactile dimension. The ribbed weave not only enhances its visual depth but also contributes to its strength and resilience, making it ideal for high-performance or lifestyle applications.

New

Rain Tech Fabric

This rain jacket material uses a 2.5-layer waterproof material that is designed to keep rain out while staying lightweight and packable. The outer face sheds water easily, while the waterproof membrane and printed inner layer provide protection from the elements without adding bulk. It offers reliable wind and weather resistance, making it a practical layer for changing conditions and everyday use.

Recycled Product

Motion Grid Performance Fabric

Our Recycled Poly Spandex fabric combines the best of sustainability and functionality to redefine your activewear experience. Crafted with care from recycled polyester fibers blended with stretchy spandex, this fabric offers exceptional comfort, durability, and performance without compromising on eco-conscious values.

LEVELWEAR FITTING CHART

Fit is one of the foundational building blocks of all garments Levelwear produces. Many factors are taken into account with each fabric and each style to ensure our fits are consistent, comfortable, and look great on the wearer for a variety of applications. Being very in tune with our core customer demographics, we focus on two key fit profiles throughout our collection: Classic Fit and Modern Fit.

Our Classic Fit is featured in about 80% of the Levelwear collection and is a traditional cut that IS ideal for all body

types. Whether you are playing golf, cheering on your favorite team, or going about your daily activities, the classic fit is your everyday wearable go to.

It is accommodating in the shoulders and chest, long enough in the body so it won't come untucked while being active, and generous in the sleeves to provide full coverage. Our Modern Fit reflects emerging trends with its slightly shorter sleeves & fitted body. This creates a trim and athletic look, while still providing full functionality for a variety of body types.

Comfort and enjoyment of any garments is ultimately determined by the fit. We are confident that the Levelwear fit will not disappoint.
