13 Sorona® Fabric

14 Recycled Poly Spandex

15 Organic Cotton

10 Textured Micro Jacquard: Made from a lightweight perforated polyester-spandex blend, this fabric delivers enhanced breathability with four-way stretch for unrestricted comfort and movement. Its quick-drying construction promotes airflow to help keep you cool, making it an ideal choice for warm-weather activities and everyday wear.

11 Soft Recycled Jersey: Our new soft herringbone is a distinctive woven pattern resembling the bones of a herring fish. It features a zigzag or V-shaped design, created by alternating the direction of twill weave. While traditionally made from wool or cotton, our new modern Polyester, Nylon Spandex blend is a higher-

performance fabric but soft and comfortable to the touch.
12 UPF 50+ Polyester Spandex: Made from a lightweight polyester-spandex blend, this fabric delivers UPF 50+ sun protection while offering exceptional stretch and all-day comfort. Its breathable, quick-drying construction helps keep you cool and dry, making it ideal for

warm-weather activities and active wear.
13 Sorona® Fabric: Sorona® fabric is our performance material made in part from plant-based ingredients, which reduces reliance on petroleum-based fibers. It has natural stretch and recovery, meaning it keeps its shape without needing a lot of added elastane. The fabric is soft to the touch, breathable, and durable, making it a popular choice for activewear and everyday apparel. It also tends to resist wrinkles and retain color well

over time, which helps garments look newer for longer.
14 Recycled Poly Spandex: Our Recycled Poly Spandex fabric combines the best of sustainability and functionality to redefine your activewear experience. Crafted with care from recycled polyester fibers blended with stretchy spandex, this fabric offers exceptional comfort, durability, and performance without compromising on eco-conscious values.

15 Organic Cotton: Organic cotton offers a natural, premium feel that's as gentle on your skin as it is on the environment. Grown without harmful chemicals or pesticides, it provides exceptional softness, breathability, and comfort you can feel every day. Durable yet lightweight, it's perfect for everything from everyday essentials.

LEVELWEAR FITTING CHART

Fit is one of the foundational building blocks of all garments Levelwear produces. Many factors are taken into account with each fabric and each style to ensure our fits are consistent, comfortable, and look great on the wearer for a variety of applications. Being very in tune with our core customer demographics, we focus on two key fit profiles throughout our collection: Classic Fit and Modern Fit.

Our Classic Fit is featured in about 80% of the Levelwear collection and is a traditional cut that is ideal for all body types. Whether you are playing golf, cheering on your favorite team, or going about your daily activities, the classic fit is your everyday wearable go to.

It is accommodating in the shoulders and chest, long enough in the body so it won't come untucked while being active, and generous in the sleeves to provide full coverage. Our Modern Fit reflects emerging trends with its slightly shorter sleeves & fitted body. This creates a trim and athletic look, while still providing full functionality for a variety of body types.

Comfort and enjoyment of any garments is ultimately determined by the fit. We are confident that the Levelwear fit will not disappoint.
